Dear Hiring Manager,

I am writing to express my interest in the position of **Software Developer**. As a recent **Master of Computer Applications (MCA)** graduate, I am enthusiastic about beginning my career in software development and contributing to meaningful technology solutions.

Throughout my academic journey, I have developed strong technical skills in **Java, Python, HTML, CSS, and SQL**, and have worked with tools like **Android Studio, Git, and SQLite**. I have a solid understanding of object-oriented programming, software development life cycles, and debugging techniques. My coursework and hands-on projects have given me the confidence to tackle real-world programming challenges.

During my academic journey, I worked on various projects that helped me build a solid understanding of software development. One of the key projects I developed was a **Customer Relationship Management (CRM) System**—a web-based application built using **Spring Boot MVC, Hibernate, Thymeleaf, and MySQL**. This system was designed to streamline customer interactions, manage sales leads, and support internal operations like ticketing, contracts, and meeting schedules. We also integrated Google services such as **Gmail, Calendar, and Drive**, enhancing collaboration and productivity.

The project included:

- Modules for lead management, sales tracking, and reminders
- Role-based access controls to maintain secure workflows
- Email and file management features integrated into a user-friendly interface

Through this project, I gained hands-on experience in designing robust backend systems, building dynamic UIs, and implementing secure, scalable database structures. It also sharpened my problem-solving and team collaboration skills.

I am passionate about software development and eager to apply my technical skills in a real-world setting. I believe that with my knowledge of **Java, Spring Boot, SQL, and front-end technologies**, along with a strong willingness to learn, I can be a valuable asset to any development team.

Thank you for considering my application. I look forward to the opportunity to contribute and grow within your organization.

Sincerely,
Arpita Kulkarni
